

HP COLOR LASERJET ENTERPRISE CP4520 PRINTER SERIES

CP4525n • CP4525dn • CP4525xh

This color laser printer with enterprise-ready networking is ideal for large workgroups that need to print high-impact color documents and protect their confidential print jobs.

- Experience powerful color printing with HP's high-performance leader. Fast print speeds, robust paper handling, and simplified controls keep your business productive.
- Produce superior color, excellent photo quality, and crisp detail for your business documents.
- Protect your sensitive data with advanced on-board security and support for optional authentication solutions.

Top-of-the-line performance

Boost your printing productivity with high-performance speeds up to 42 pages per minute (ppm) letter/40 ppm A4—ideal for large workgroups. Get a first page out in as fast as 9.5 seconds. Instant-on Technology enables print jobs to begin quickly from low-power mode and provides up to 50 percent energy savings over competitive laser products.¹

Improve efficiency and simplify printing for multiple users and print jobs. HP Advanced Auto Media Sensing automatically adjusts settings according to paper type. An intuitive, 4-line color control panel with auto-navigational help makes printer operation easy and straightforward.

With twenty-five years of continuous innovation and reliable, professional-quality printing—HP LaserJet remains the brand businesses count on.

Exceptional color output

Make a statement with high-impact color documents. The improved HP Universal Print Driver with HP EasyColor simplifies color printing and improves the rendering of images for consistent print quality.² With HP ImageREt 3600 and up to 1200 x 1200 dpi, you'll get superior results: smooth color transitions, crisp text, and sharp images for all of your office documents and professional marketing materials.

Manage your color printing costs using HP color access controls.³ Assign color access by user, time of day, or application, or shut color capability down completely until it's needed for special projects. This ensures that the people who truly need to leverage the power of color—such as your marketing department—can, while others automatically default to black-and-white printing.

Advanced on-board security

Secure your business-critical data with the HP Secure Hard Disk,⁴ expand the number of IP addresses on your network with IPv6, and implement sophisticated network access control with 802.1x authentication and IPsec encryption. Keep sensitive material private when you retrieve stored confidential print jobs using the control panel.

Conveniently connect an optional security card reader or other authentication device with the Hi-Speed USB 2.0 port.

HP Services

Because downtime can have serious business consequences, HP provides high-quality services that extend beyond the standard warranty and help you avoid unbudgeted repair costs. Benefits include reduced printing and infrastructure costs, maximized uptime, expert technical phone support, and predictable, consistent service delivery—even across multiple locations.

Recommended services:

- **Installation Service with Network Configuration:** expert assembly of HP accessories, hardware verification, network configuration, and basic administrator familiarization
- **Same Day Onsite Service:** technician arrives at your site within four hours after service call is received, if this time falls within the coverage window
- **Next Day Onsite Service:** HP-employed service engineer or authorized support provider delivers service the next day after your call has been logged

These services and additional coverage options can be purchased as:

- **HP Care Pack Services:** easy-to-buy, easy-to-use support packages
- **HP Contractual Services:** a comprehensive portfolio for maintaining maximum IT availability

HP also offers **HP Managed Print Services:** scalable assessment, procurement, implementation, management, maintenance, support, and workflow services.

⁸ Exact speed varies depending on the system configuration, software application, driver, and document complexity.

⁹ HP recommends that the number of printed pages per month be within the stated range for optimum device performance, based on factors including supplies replacement intervals and device life over an extended warranty period.

¹⁰ Duty cycle is defined as the maximum number of pages per month of imaged output. This value provides a comparison of product robustness in relation to other HP LaserJet or HP Color LaserJet devices, and enables appropriate deployment of printers and MFPs to satisfy the demands of connected individuals or groups.

¹¹ Declared yield value in accordance with ISO/IEC 19798. Actual yields vary considerably based on images printed and other factors. For details see www.hp.com/go/learnaboutsupplies.

¹² Declared per ISO 9296 and 7729; values are subject to change. Configuration tested: HP Color LaserJet CP4525dn, printing at 42 ppm on letter paper.

¹³ Values subject to change. Power numbers are the highest values measured using all standard voltages.

¹⁴ HP SureSupply alerts you when your print cartridge is running low and helps you purchase online or locally through HP or a participating retailer. Only available with Original HP supplies; Internet access required.
